SUBSCRIPTION TO THE EVENING EDITION,

Entered at the Post-Office at New York as second-cla-

IN A NUTSHELL! A RECORD NEVER APPROACHED.

URING 1888 THE WORLD HAS PRINTED and sold ten copies for every family in the United States-Two copies for nearly every man, woman and child.

THE total estimated circulation of all the 1,423 daily papers in the United States in only fourteen times that of THE WORLD.

HE total weight of all THE WORLDS printed during the past year exceeds Seventeen reight train five miles long to transport them

ONE single day's issue of THE WORLD, with the columns placed end to end, would have made a band around the equator. In book form it would have made more volumes than in any library on earth.

THE past year had only 31, 622, 400 seconds, but it had over 104, 473, 650 WORLDS, ernearly four WORLDS for every second in

What Other Newspaper Printed HALF AS MANY opies During 1888 and What Are the Exact Figures ?

WORLDLINGS.

The little town of Brookline, Mass., is wealthiest town of its size in the country. It is valued for taxation purposes at more than \$407,000,-

An Atchison (Kan.) man has attained con siderable local reputation as a mortuary prophet. He has predicted the demise of a number of people, and in every case his prophecies were speedily fulfilled.

Mrs. Cannon, wife of the Illinois Congress man, is a handsome matron who for many years has held a conspicuous position in the social life of the capital. She is very skilful with the needle, and many of the dresses she wears are embroidered by herself.

Elmwood, James Russell Lowell's beautifu and historic home in Cambridge, Mass., it likely soon to pass into other hands. It is one of the few survivors of the old mansions built by the aristocratic Tories of revolutionary times. For several years past it has been occupied by

orismouth Navy-Yard and had charge of Defaulter Raine, a petty officer in the cloth-ing supply department. It is said that Prosperi supplied Raine with

It is said that Prosperi supplied Raine with the means of escape, and that, rather than stand investigation, he descrited and took up his residence in Jersey City, stopping temporarily at Everett's Hotel.

He there met Miss Mary Miller, and in January, 1888, he married her, though he had a wife living at the time in Washington.

Presperi and his wife came over to New York and put up at a bearding-house at 141 West Fifteenth street. The wife had a little money, so they got on nicely for a time, but the charms of one of the other boarders in the house appear to have surpassed those of the wife, for on March 10, two days before the blizzard, Prosperi eloped with Miss Mary Duffy.

A Case of Matrimoulal Success.

Dufly.

Then came the blizzard. Mrs. Prosperi was snowbound and could not search for her recreant husband; but four months ago, while shopping at Macy's, she accidentally encountered him. He put a bold face on the matter and asked her for some money. She refused to give him any and he departed, breathing threats against her.

She saw no more of him till vesterday, when she learned he was living in the same street with her. She thereupon caused his arrest.

A Case of Matrimonial Success

A FROLICSOME COMPANY. MAKING WOMEN ATHLETES. PAYING OVER THE STAKES.

BERKELEY GYMNASIUMS.

The Umbrellas of the Fair Sex Will Soon Be Protectors from Insult as Well as from Rain-Description of the Fine New Buildings Soon to Be Completed in West

Forty-fourth Street... The Berkeley Oval. In the course of a few weeks there will be physical culture in America, and it almost marks a new era in athletics, from the fact that money in the hands of the stakeholder paid women are to share extensively in its advan-

It is being constructed by the Berkeley to the front in the promotion of amateur athletic sports and physical training.

The Berkeley Athletic Club, organized last Spring, and the Ladies' Athletic Association and Ladies' Outing Club, started since then, are branches of the Association.

The President, Dr. John S. White, also head master of the Berkeley School, at 6 East Forty-fourth street, is a well-known advocate of the physical training and development of women, and it is largely through his efforts that the Ladies' Athletic Association was established.

Mr. White says: "Let a lady be an expert safe in almost any situation. A woman who attacks of almost anything except bullets." The Berkeley Lyceum Association pur-

ompleted.
The appointments of both sections, which and arrange this.

The appointments of both sections, which are connected, are of the most complete character in every way.

In the basement of the B. A. C. are three bowling alleys, laid in patent felting, which avoids noise, well lighted and ventilated; a boxing-room, fixed out with convenient lockers; ample bathing facilities, the plunge tash occupying a room 56 feet long and 12 feet wide, this had in white Italian marble; an siley for taking the running long jump and a billiard and poor room.

The main floor contains a spacious reception-room, cost-room &c., and the assembly room, or theatre, which will seat 500 persons and designed for private theat-reals.

room, or theatre, which will seat 500 persons and designed for private theatreals.

At present men are at work making the theatre meet the requirements of the law regarding fire escapes, and it will be opened next week, when engagements lasting forty evenings will begin.

The floor of the theatre slopes towards the stage and is filled with the most approved opera chairs. It is a charming little place and will prove a handy source of revenue for the association.

The gymnasium occupies the entire upper

the association.

The gymnasium occupies the entire upper half of the building. It is 101 by 50 feet and is fitted with the best appliances for gymnastics, manufactured expressly for the Association under the personal supervision of William L. Savage, the Director.

The membership of the Club is limited to 500. It now numbers about 360. Over ninety members were elected last month, and many were rejected. At this rate it will not be long before the limit is reached, and then the Club says it will stop receiving the initiation fees.

says it will stop receiving the initiation fees.

Its purpose, as stated in the by-laws, is not so much to produce great athletes as it is to so much to produce great athletes as it is to produce the most symmetrical physical de-velopment of ea h individual. But the Club has some great athletes, even if its chief sum is not to produce them. Its Board of Governors con-ists of George W.

Dickerman, an all-arcund Harvard athlete: W. L. Savage, an Autherst athlete: Wendell Baker, a Harvard man and champion runner; L. B. Gawtry, an old Yale jumper; H. A. Taylor, crack tennis player and authority: C.

Old Lady—Oh, Mister Conductor, would you mind stoppin' a minuit? (The conductor stopped). I say, Mandy, how's the baby gittin' on with it's las' tooth?

A Delicate Situation.

[From Harper's Baser]

The asty embary says way he began.

The ladies' department is termed a private at lietic institution for girls. No one who is not a member of the Ladies' Athletic Association or Ladies' Outdoor Ciub is allowed to enter. The accomplishment of this project marks a new departure in the physical training of women, which has been so saily neglected in this city. The ladies enjoy every facility for developing their bodies and keeping themselves in good health.

The ground floor of their club-house contains reception-room, parlor, library and

The ground floor of their club-house contains reception-room, parlor, library and rooms for various indoor games, such as chess, checkers and the like. The second floor is devoled to dressing-rooms, bath, toilet and private social rooms, and the entire upper half of the building is the gymnasium, furnished with apparatus made especially for women of all eges and physical conditions. The basement contains bowling alleys and swimming facilities.

swimming facilities.

Especial attention is given to swimming and fencing, and some of the young women of eighteen years who train regularly are competent to make it warm for the best men

A GREAT FEATURE OF THE WORK AT THE THAT MAY CAUSE A WRANGLE AFTER THE

Harding Thinks the Concessions in the Sullivan-Kilrain Agreement Were Abou Even-The Marine Is Willing to Meet Rengan-Lambert After a Match With

A despatch has been received in this city, completed in West Forty-fourth street one of saving it is oneer that the articles for the the most complete buildings devoted to match between Kilrain and Sullivan do not give the referee the power to order the to the winner, but declare that the stakes shall be paid by mutual consent of the principals. This despatch was shown to Jimmy Lyceum Association, which organization, al- Wakely last evening and he said that it is though yet in its infancy, is rapidly coming unnocessary to stipulate this power of the referee in the articles of agreement, and that it is not provided that the consent of both parties is necessary before the stakeholder shall turn over the money, if the battle is fairly won or lost. The articles as signed provide that the stakes " are not to be given up unless by mutual consent or until fairly won or lost by a fight, and due notice shall be given to both parties of the time and place of giving the money up." clause is a little obscure and in the event of either party claiming the referee's decision to be unfair there may be a wrangle over the disposition of the stakes, unless when fencer and swimmer and she is comparatively | a stakeholder and referee is chosen some provision is made to guard against it. Mr. understands the art of fencing can with au Wakely says the stakeholder will have full ordinary umbrella defend herself against the power to dispose of the money according to the decision of the referee, and by the latter's decision both parties will have to abide cnased three lots in West Forty-fourth street, faithfully. Regarding Kilrain's desire to Nos. 19, 21 and 23, for \$75,000. On two of clinch the match by having a final stakethem it raised the headquarters of the Berke. | holder agreed upon immediately and the forley Athletic Club, and now the quarters of the Ladic.' Athletic Association, erected alongside of it, on the third lot, are nearly perfectly willing to meet Kilrain at any time perfectly willing to meet Kilrain at any time

> W. E. Harding, who made for Kilrain his match with Sullivan and who has had as much experience with prize-fighting as any man in the country, explained for the first time yesterday his position regarding the match as it now stands. Kilrain and Mr. Fox have said that too many concessions were made to the Sullivan party. Mr. Harding differs with them, claiming that no concessions have been made. "In making matches sions have been made. "In making matches for championship prize-lights, four points are all of importance to be considered, said Mr. Harding. "These are time before fighting, place of fighting, final stakeholder and referee. In the present match there are five points, on account of the Police Gazetic championship belt. Only three of the points have been considered. These are time, place and the belt. Both men agreed upon the place. Kilram prefers the South. Now as to time and the belt there was a dispute. Sullivan didn't want the best to be in the match, and Kilram wanted to fight in for months instead of six. Kilram's representatives gave the extra of six. Kilrain's representatives gave the extra two mentis and bullivan agreed to fight for the belt. This, in my mind, makes the thing the beit. This, in my mind, makes the thing even. As far as choosing the referee is concerned, out of twenty-five championship fights, only in two cases has the referee been chosen before the men were in the ring, and these were both for small amounts. This fight is for the largest amount of money that was ever fought for. The largest heretofore was when kilrain and Jem Smith fought for \$12,090. The bat le was for \$5,000 a side and an outside bet of \$1,000 between the principals. Here \$20,000 is involved. The and an outside bet of \$1,000 between the principals. Here \$20,000 is involved. The custom is to choose the referee at the ringside. If the parties do not agree on a stake-bolder the match is off and each can draw its deposit from the Clipper. If on the day of fighting a referee cannot be decided upon and the fight is delayed until July 9 instead of July 8, the match is off and the deposit is drawn, also, I simply state the rules as they are now."
>
> The has a regular cornet lip and lung and has been giving all-night recitals ever since he was born! I haven't sept a wink for two principals.
